

LBT REPLACEMENT CHASSIS ASSEMBLIES

- Still operating a great LBT or Fruehauf tank but the chassis, suspension and brakes are becoming costly to maintain?
- Want to get rid of those tired and troublesome leaf springs and update to Air Ride Suspensions?
- Upgrade to the industry's current state-of-the-art technology with improved ABS/Roll Stability systems and Disc Brakes.
- Frames available in Carbon Steel, Galvanized Carbon Steel, Stainless Steel and light weight Aluminum (tandem only).
- Many axle configurations available.
- Designed to bolt straight in with minimal modifications.
- Frame only can also be supplied.
- Contact our AMS sales team with the VIN or Serial number of your trailer for further information, pricing and availability.
